

Postdoc & Ph.D. student

Two positions for a Postdoc and Ph.D. student are available at the Laboratory of Prof. Luciana Tessitore, University of East Piedmont, Novara. We are looking for an experienced cell/molecular biologist to join our team investigating the role of autophagy in cancer. The work will concern a coordinated modulation of autophagy and tyrosine kinase receptors and multi drug resistance for cancer therapy.

Applications should be sent with a full CV to Luciana Tessitore (tessitore@pharm.unipmn.it).
