

Position at Centro Cardiologico Monzino-IRCCS, Milan

A salary is available for a pre/post doctoral level fellow working in flow cytometry.

Pre-requisite is a specific knowledge of flow cytometry applications and sorting protocols.

The candidate will be engaged in different research projects requiring flow cytometry both for analysis and sorting of cells populations, and will be responsible for the good functioning and maintenance of a latest generation FACSria machine.

A reasonable, experience-related salary will be offered to candidate.
